Help TRS-ActiveCare participants lower their out-of-pocket costs and make getting lab work easier by using Quest Diagnostics

Quest Diagnostics is TRS-ActiveCare’s preferred lab testing provider. Using Quest for lab testing can help participants reduce their out-of-pocket costs. **Participants with ActiveCare Select and ActiveCare 2 pay \$0 for covered lab tests at Quest Diagnostics.** For ActiveCare 1-HD, Quest Diagnostics is covered at 80% after deductible. Learn how much participants can save from the chart below*, and inform participants about the benefits of using Quest for lab testing with new marketing resources.

		Quest Diagnostics	Other In-Network Independent Labs	In-Network Hospital Labs	Out-Of-Network Labs
Lab Test Cost**		\$30	\$45	\$120	\$300
Participant's Coverage	ActiveCare Select	100%	80%	80%	0%
	ActiveCare 2	100%	80%	80%	60%
	ActiveCare 1-HD	80%	80%	80%	60%
Participant's Cost	ActiveCare Select	\$0	\$9	\$24	\$300
	ActiveCare 2	\$0	\$9	\$24	\$120
	ActiveCare 1-HD	\$6	\$9	\$24	\$120

*Example based on a patient who met his or her deductible. Dollar amounts show sample rates. They do not show the rates for all providers in a particular category. Costs shown do not include any applicable copays or coinsurance. Refer to plan documents for more information.

**These costs show an example of a routine lab test. Lab test cost may vary depending on the actual test provided.

A *Quest Diagnostics* communications tab has been added to the BA news site. Find materials to help guide participants to better their health management. The new materials include flyers that can be downloaded and printed to post in break rooms and teacher lounges, as well as materials to email and web content for your district/entity intranet site.

To access the BA *Quest Diagnostics* communications library visit www.trsactivecareatna.com/banews and log in.
