Individual Technology Goal (ITG)

Why do we have an ITG?

To help teachers re-engineer their classrooms for digital age learning no matter where they fall on the roadmap to meaningful, effective integration.

According to the International Society for Technology in Education (ISTE) Educator Standards, educators continually improve their practice by learning from and with others and exploring proven and promising practices that leverage technology to improve student learning. Educators should do the following:
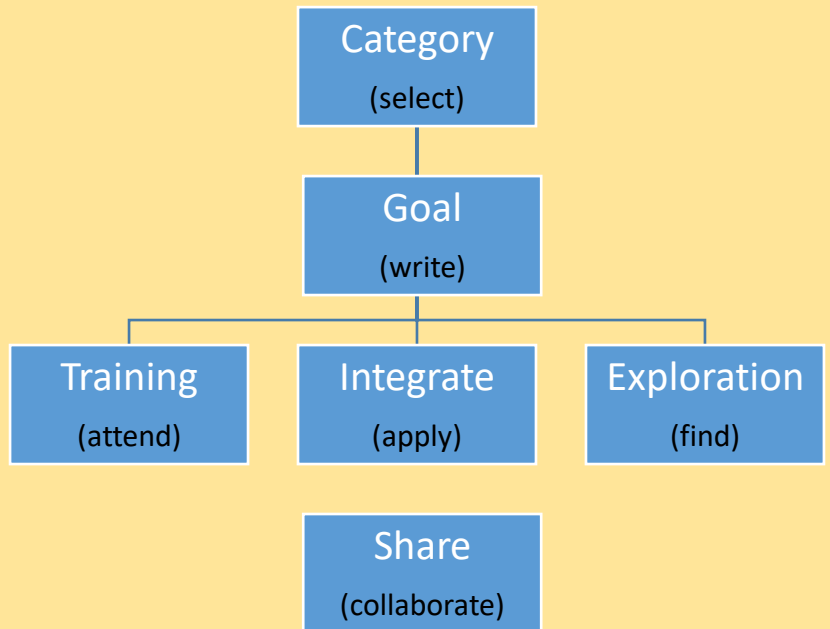

1a) Set professional learning goals to explore and apply pedagogical approaches made possible by technology and reflect on their effectiveness.

1b) Pursue professional interests by creating and actively participating in local and global learning networks.

1c) Stay current with research that supports improved student learning outcomes, including findings from the learning sciences.

Benefits of using technology in the classroom.

- Improves engagement. …
- Improves knowledge retention. …
- Encourages individual learning. …
- Encourages collaboration. …
- Students can learn useful life skills through technology. …
- Benefits for teachers.

TASK CHALLENGE

Step 1: Talk to your TIS – join Google Classroom and make a copy of the ITG document

Step 2: Suggested timeline
- August – Category and Goal
- September/October –Training
- October thru March – Integrate
- November – Exploration
- January/February – Share

Step 3: Open your saved Document and fill out information as each item is completed

Step 4: If you need help ask your campus TIS. They can assist in finding training opportunities, coach/co-teach integration, and provide resources.

Step 5: Submit completed ITG document via
