

Wellness Policy Evaluation Checklist

An effective policy is tailored to your district and individual school's needs, goals, and resources.

Step 1: Find your local school wellness policy.

Your policy should be easily located. Ideally, your policy will be available on the school web site, and easy for parents and others to find.

Step 2: Review your local school wellness policy.

Use the checklist to evaluate the strength, comprehensiveness and specificity of your campus wellness policy.

Step 3: Update your local campus wellness policy.

If you identify key required sections that are missing, you must update the policy.

If you have sections that are weak, decide which areas are a priority, strengthen the language in keeping with local priorities and resources, and develop an implementation plan.

Campus Wellness Policy Evaluation 2018-2019

Campus Name: _____ Campus Principal _____

<i>Determine which statement best describes your campus wellness policy.</i>	<i>Clear Evidence</i>	<i>Minimal Evidence</i>	<i>No Evidence</i>	<i>Not Applicable</i>
