

June 1st - June 25th

A DIFFERENT WORLD

GPISD POST HIGH SCHOOL EXPERIENCE

WHAT'S A DIFFERENT WORLD

A different world is a virtual summer enrichment program designed to give students insight on life after gaining the high school diploma. Every week we will focus on an endorsement and the careers, majors, and have an "Endorsement of the week" where we will explore the majors and what it takes to get a career within the endorsement on Tuesday and Thursday we will go on another field trip at a career within the same endorsement.

BENEFITS

- No cost to GPISD students
- Gain insight on majors within each endorsement
- Receive general college information
- Real life testimonials from prior GPISD students
- Receive college merchandise

WHO CAN ATTEND

Current GPISD students in grades 8th-12th (first year freshmen from the district are welcomed to attend)

HOW

This four week program will meet every Tuesday and Thursday virtually from 1:00-2:30 pm. We will go on virtual field trips each day. On Tuesdays we will visit a college and get as much information regard admissions, financial aid, academic success, majors that coincide with the "endorsement of the week," and student life. We will interview prior GPISD students who is currently in college or their career and let them share their testimony. On Thursdays we will have an even better field trip where we will go to a career location that also coincide with the "endorsement for the week" and show the inside logistics of getting the job done.

Seats are limited so apply here:
